- SASS/SCSS
- Accessibility
- Jasmine & Karma
- Photoshop
- Sketch

Experience

Software Engineer, Allianz Life (October 2017–Present)
- Developing consumer and business calculators using React and Mobx.
- Creating and maintaining pattern library for Allianz properties using React, Mustache, and SCSS.
- Establishing development and accessibility standards for pattern library components.

Software Engineer, RAZR Marketing (September 2016–August 2017)
- Built Angular component library for RAZR developers to streamline development processes.
- Lead front end development for templatizing US Bank's rewards site using Angular and PHP.
- Maintained code quality by writing unit tests with Jasmine and Karma to prevent code defects.

Front End Design Intern, SportsEngine (May 2016–August 2016)
- Developed and updated clients sites through SportsEngine's CMS.
- Gained valuable understanding of development best practices.
- Collaborated with a small team to creatively solve problems on a complex code base.

Student Web Developer, Prime Digital Academy (December 2015–March 2016)
- *Personal Project: Paw Finder*
  - Improved the animal adoption process with masonry-style interface to browse pets quickly.
- *Group Project: Equipment manager application for SportsEngine*
  - Manages equipment so it can be reserved for future events and tracked for availability.
  - Developed front-end and designed application using SportsEngine's platform style guide.

Education

Prime Digital Academy (2015–2016)
- Completed an 18-week course that teaches students full-stack application development.
- Learned fundamental programming methodologies from industry experts.

Century College (2014)
- GPA 3.5

North Hennepin Community College (2013–2014)

Winona State University (2012–2013)
